ROAD TO

MASTERY

ONLINE CO-CREATIVE SCRUM TRAINING

ROAD TO MASTERY

GET SERIOUS!

Our training program is a mix of online group and individual coaching, masterminds, peer-review, field practice and assessment.

It is a continuous interactive training. We learn from each other. You will join and grow a network of other Serious Scrum Masters who will continue to support each other in the field.

A TSUNAMI OF SENSE

- This is NOT the ordinary 2-day theoretical classroom Scrum Training.
- This is a weekly recurring, ever-ongoing training.
- You can decide each week if the next training will be of value to you.
- You will learn how to 'Train from the Back of the Room'.
- You will grow a valuable international network.
- You will learn and explore lots of awesome materials and grow your personal Scrum 'Backpack'.
- This training is NOT just to test your knowledge of Scrum, but its appliance. If that is your aim, whether you are certified or not, join us!
- Your work environment matters! We help you apply learnings to your environment.
- With other practitioners, guided by a facilitator, you journey together to improve your Scrum practice.
- You do not need to visit a training location. You can attend the sessions from home and office.
- You aim to improve your and your organisation's shared understanding and practice of Scrum.
- You will explore the 'why' behind the Scrum Guide.
- You will learn how to apply your learnings in the field to become more successful with Scrum.

OUR COLLABORATIVE WORKSPACE

We co-create trainings, retro's, masterminds, and share awesome, inspiring and helpful Scrum materials in our online Serious Scrum workspace in Miro.

The screenshot shows the Miro homepage with a dark background. At the top, there is a navigation bar with the Miro logo, links for Product, Solutions, Resources, Pricing, Enterprise, and Contact us, and buttons for Log in and Sign up free. Below the navigation, the main headline reads "Where distributed teams get work done" with a yellow sticky note icon above it. A sub-headline says "The online collaborative whiteboard platform to bring teams together, anytime, anywhere." There are three user icons labeled Anna, Trevor, and Elena, each with a small orange arrow pointing to their respective profile cards. At the bottom, there are sections for "Meetings and Workshops" and "Meetings & Workshops".
